

# COLD AND FLU SEASON is coming. ARE YOU PREPARED?

KEEPING HANDS CLEAN  
HELPS PREVENT ILLNESS AT  
WORK, SCHOOL AND HOME

Up to **80%** of all infections are transmitted by hands.<sup>1</sup>

## Help Prevent Illness and Absenteeism

"Washing your hands correctly (or using an alcohol based hand rub) is the most effective thing you can do to protect yourself against a number of infectious diseases, such as influenza (the "flu") and the common cold. Not only will it help keep you healthy, it will help prevent the spread of infectious diseases to others."

— Public Health Agency of Canada

GOJO has conducted multiple outcome studies to scientifically prove that a program including GOJO® hand soaps, PURELL® hand sanitizer, and state-of-the-art dispensing will reduce illness and absenteeism across a wide range of real world settings.

# THREE ESSENTIAL STEPS TO BETTER HEALTH
