CONCROBIUM MOLD CONTROL

Concrobium Mold Control offers mold remediation and prevention in a single solution, making it a versatile antimicrobial for restoration pros. The EPA-registered product can be deployed during the "knock down" phases of restoration projects to control mold spore proliferation, and can be applied on restored surfaces for ongoing mold protection.

Benefits

- Single solution remediates and prevents mold
- No bleach, ammonia or VOCs
- EPA-registered for hard surface and fabric applications
- Requires zero isolation time and has no odor
- Can be fogged to treat large and inaccessible spaces
- Ready to use solution – no mixing required
- Available in Aerosol and 3.78L

CONCROBIUM ODOUR & MOISTURE CONTROL DESICCANT PACKS

Concrobium Odour & Moisture Control Desiccant Packs ensure contents remain odour-free, dry and protected.

Benefits

- Absorb and control odour in packed contents boxes, containers and pods
- Reduce humidity in contained, unattended spaces to help protect contents against mold damage and musty odour
- Low profile, easy-to-place pouches that fit easily into pack-out boxes
- Completely non-toxic, biodegradable and easily discarded after use
- Available in 260g and 1kg

CONCROBIUM DISINFECTANT CLEANER

Concrobium Broad Spectrum Disinfectant represents the next generation of plant-based disinfection. Unlike other products, Concrobium Broad Spectrum Disinfectant provides a superior cleaning so users don't have to resort to two separate products for disinfection and cleaning.

Benefits

- EPA-registered bactericide, virucide, tuberculocide and fungicide.
- Botanically-derived formula
- One-step hospital grade disinfection and cleaning
- No harsh or lingering fumes
- Ready to use – no mixing required
- Available in 3.78L
